

EYFS REMOTE LEARNING PLAN

Core Learning Tasks for Thursday 26th March 2020

CORE LEARNING TASK FOR ENGLISH

We hope you enjoyed reading 'SUPERWORM' and joining in with the chant! In your home learning pack you have some pictures from the story. Please sequence these pictures and talk about what is happening at each part of the story. Stick these pictures in your Remote Learning Book (2 on each page) and under each picture write a sentence to describe what is happening in the picture. If appropriate you may like to extend your learning by writing 2/3 sentences.

TRICKY WORDS

In our phonics lessons we enjoy joining in with our 'Tricky Words' song. Here are the links for you to have a sing along to at home!

Orange/ Blues - <https://www.youtube.com/watch?v=TvMyssfAUx0>

Yellows/Reds/Purples/Greens -

<https://www.youtube.com/watch?v=R087IYrRpgY>

You could write down some of the tricky words in your Remote Learning Book. If appropriate you could write sentences using the trick words.

OXFORD OWL

Oxford Owl is a fantastic online educational resource to support your child's learning at home. We have created a class login for the children.

My class name: foundationsherwood

My class password: sherwood

It gives the children the opportunity to read books online. Alternatively, you could create your own log in, which allows you to explore the website further, supporting additional reading, phonics and maths.

CORE LEARNING TASK FOR MATHEMATICS

Please complete the assigned tasks on Mathletics. Your username and passcode are in the Remote Learning book.

Explore Espresso on Discovery Education. Your login and password are in the Remote Learning book. Hover over the Foundation area and select Maths then Writing number 0-20.

Begin by watching the 4 videos. All the videos focus on number formation. Once you have finished watching the videos, click on 'activities' down the left hand side and fill in the missing numbers on the number line. You can use your number line in your Remote Learning Pack to help you. Next practise writing down some different numbers. Ask someone at home to give you some numbers between 0-20 and write them down in your Remote Learning Book. To extend your learning, you could write down the numbers that are one more and/or one less than the number given to you. Finally ask someone to write down a selection of numbers from 0-20 on separate pieces of paper, for example 9, 10, 11 and 12. Mix the numbers up, see if you can place them in the correct order and stick them in your Remote Learning Book.

PE LESSONS WITH JOE WICKS

It is important that we continue to keep fit at home. Joe Wicks is calling for pupils to take part in his daily PE lessons. Please see the link below for further information on how to take part.
