

### CORE LEARNING TASK FOR ENGLISH

Today, we will continue our work on inventions.

Read about ten of the latest inventions created here:

<https://www.cbc.ca/kidscbc2/the-feed/10-of-the-latest-inventions-to-make-life-easier>

Thinking about these inventions, and the ones that you researched on Tuesday, choose your favourite.

Imagine you have been asked to create an advertisement to sell this invention on the TV, in a similar way to Shouty Man on Horrible Histories. If you are unfamiliar with Shouty Man, a compilation of his adverts can be found here:

<https://www.youtube.com/watch?v=R7ZkNvMMAfw>

#### **Task**

Write a script for your advert. Think about including persuasive features in your script such as: the invention benefits, appealing adjectives, a snappy slogan, facts and offers, modal verbs.

Once you have finished your script, why not record it and send it to us? Remember to speak clearly and with lots of expression – just like Shouty Man!

### CORE LEARNING TASK FOR MATHEMATICS

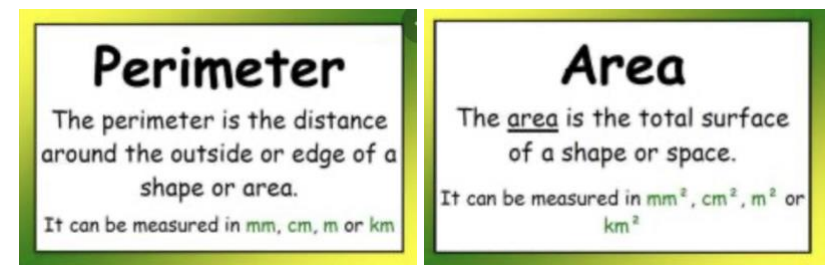

This week, we will be revisiting Perimeter and Area of regular and compound shapes.

**Remember that Perimeter is the distance around the edge of a shape and Area is the amount of space that the shape takes up.**

- Watch this video to remind you all about area.  
<https://vimeo.com/415436807>

#### **Task**

Complete the two worksheets (found on the Remote Learning page) Start with Area of Rectangles and then move onto Area of Compound Shapes. (Remember to split the compound shape up into rectangles and work out the length of the sides to help.)

### KEEPING IN TOUCH

If you have any questions or queries regarding remote learning tasks, please contact your child's class teacher through the email address below.

We invite you to submit photographs of your children's experiences and photographs of completed paper based tasks to:
