Spring Test 1

Questions, Answers and Topic Information

Read the following instructions or press 'play' ▶ and listen to the instructions being read from the CD-ROM.

Listen carefully to the instructions I am going to give you. When I have finished reading them, I will answer any questions. You will not be able to ask any questions once the test has begun.

I am going to ask you 20 questions. On your sheet there is an answer box for each question, where you should write the answer to the question and nothing else. You should work out the answer to each question in your head, but you may jot things down outside the answer box if this helps you. Do not try to write down your working because this will waste time and you may miss the next question. For some of the questions, important information is already written down for you on the answer sheet.

I will read each question twice. Listen carefully both times. You will then have time to work out your answer. If you cannot work out an answer, put a cross in the answer box. If you make a mistake, cross out the wrong answer and write the correct one next to it. There are some easy and some harder questions, so do not be put off if you cannot answer a question.

Now pause, or press 'pause' ❚❚ on your CD player or computer. Ask the children if they have any questions. Once you have answered all the questions, read out the following instructions. Alternatively, play the audio recording from the CD-ROM.

▶ **Now we are ready to start the test.**

		Answer	Topic
For this group of questions you will have 5 seconds to work out each answer and write it down.			
1	How many right angles has a square?	4	PS
2	Divide twenty-eight by four.	7	MD
3	What is the sum of twenty-two and sixty-six?	88	AS
4	What is the difference between two-sevenths and three-sevenths?	$\frac{1}{7}$	F
5	Write one thousand and sixty-three in digits.	1063	NPV
6	Round three thousand and forty-two to the nearest thousand.	3000	NPV
7	Half of a number is forty-six. What is the number?	92	MD
8	How many days are there in March?	31	M
9	Look at your answer sheet. What is the total of the coins?	92p	AS/M
10	What is the digit four worth in the number five point four?	4 tenths	Dc
For this group of questions you will have 10 seconds to work out each answer and write it down.			
11	Look at your answer sheet. Tick the shape after it has made a quarter turn anti-clockwise.	◁	PD
12	Look at your answer sheet. Draw a ring around one-quarter of the pencils.	3 pencils	F
13	Look at your answer sheet. Draw a line of symmetry on the shape.	△	PS
14	How many days in three weeks?	21	M
15	What is one-sixth of sixty?	10	F
16	What is the difference between one hundred and fifteen?	85	AS
17	Write six kilometres and five hundred metres, in kilometres, as a decimal number.	6.5 km	M/Dc
18	Look at your answer sheet. What number comes next?	59	NPV
19	Look at your answer sheet. Circle all the multiples of three.	51 and 54	MD
20	Alex scores thirty-seven in his first game of darts and fifty-six in his second game. How much has he scored altogether?	93	AS

Now put down your pen or pencil. The test is finished.

NPV = Number, place value   AS = Addition and subtraction   MD = Multiplication and division   F = Fractions
Dc = Decimals   M = Measurement   PS = Properties of shapes   PD = Position, direction
