**Difference between number pyramids**

(The brick above is the **difference between** the two bricks below.)

Example:

Remember to show your working out.

```
        29
     12    41
   21    9    50
```

$21 - 9 = 12$

$50 - 9 = 41$

$41 - 12 = 29$
