

Spring Test 3

Questions, Answers and Topic Information

Read the following instructions or press 'play' ► and listen to the instructions being read from the CD-ROM.

Listen carefully to the instructions I am going to give you. When I have finished reading them, I will answer any questions. You will not be able to ask any questions once the test has begun.

I am going to ask you 20 questions. On your sheet there is an answer box for each question, where you should write the answer to the question and nothing else. You should work out the answer to each question in your head, but you may jot things down outside the answer box if this helps you. Do not try to write down your working because this will waste time and you may miss the next question. For some of the questions, important information is already written down for you on the answer sheet.

I will read each question twice. Listen carefully both times. You will then have time to work out your answer. If you cannot work out an answer, put a cross in the answer box. If you make a mistake, cross out the wrong answer and write the correct one next to it. There are some easy and some harder questions, so do not be put off if you cannot answer a question.

Now pause, or press 'pause' ■■ on your CD player or computer. Ask the children if they have any questions. Once you have answered all the questions, read out the following instructions. Alternatively, play the audio recording from the CD-ROM.

► Now we are ready to start the test.

	Answer	Topic
For this group of questions you will have 5 seconds to work out each answer and write it down.		
1 Write the number seventy-five in words.	seventy-five	NPV
2 What is three multiplied by nine?	27	MD
3 Write twenty-nine in Roman numerals.	XXIX	NPV
4 Write seven-tenths as a decimal number.	0.7	Dc
5 What do two right angles together make?	straight line or 180°	PS
6 How many seconds in half a minute?	30	M
7 How many lines of symmetry has a rectangle?	2	PS
8 Which day is three days before Thursday?	Monday	M
9 Divide two hundred by ten.	20	MD
10 Write one-quarter as a decimal number.	0.25	Dc
For this group of questions you will have 10 seconds to work out each answer and write it down.		
11 What is sixty-four divided by eight?	8	MD
12 What is one-fifth of twenty-five?	5	F
13 Name a shape that has two pairs of equal lines.	rectangle, kite, rhombus or parallelogram	PS
14 Add thirteen, seven, five and one.	26	AS
15 Halim gave thirty-six pounds to Comic Relief and had forty pounds left. How much money did he have to start with?	£76	AS/M
