### CORE LEARNING TASK FOR MATHEMATICS

What did we find out yesterday? We found out that  $\frac{1}{10}$  is written as 0.1 as a decimal and  $\frac{1}{100}$  is written as 0.01.

Does anyone know how we would write  $\frac{1}{4}$  as a decimal?  $\frac{1}{2}$  and  $\frac{3}{4}$ ? Is there another way we could write and  $\frac{1}{2}$  as a fraction?
