Spring Test 7

Questions, Answers and Topic Information

Read the following instructions or press 'play' ▶ *and listen to the instructions being read from the CD-ROM.*
Listen carefully to the instructions I am going to give you. When I have finished reading them, I will answer any questions. You will not be able to ask any questions once the test has begun.

I am going to ask you 15 questions. On your sheet there is an answer box for each question, where you should write the answer to the question and nothing else. You should work out the answer to each question in your head, but you may jot things down outside the answer box if this helps you. Do not try to write down your working because this will waste time and you may miss the next question. For some of the questions, important information is already written down for you on the answer sheet.

I will read each question twice. Listen carefully both times. You will then have time to work out your answer. If you cannot work out an answer, put a cross in the answer box. If you make a mistake, cross out the wrong answer and write the correct one next to it. There are some easy and some harder questions, so do not be put off if you cannot answer a question.

Now pause, or press 'pause' ▋▋ *on your CD player or computer. Ask the children if they have any questions. Once you have answered all the questions, read out the following instructions. Alternatively, play the audio recording from the CD-ROM.*

▶ **Now we are ready to start the test.**

		Answer	Topic
For this group of questions you will have 5 seconds to work out each answer and write it down.			
1	What is ten less than forty-three?	33	NPV
2	Take away seven from one hundred and seventy-eight.	171	AS
3	Look at your answer sheet. Circle the shape on your sheet that has one-third shaded.		F
4	Write the number six hundred and eleven in digits.	611	NPV
5	What is the difference between twenty and fifty?	30	AS
6	Look at your answer sheet. What is the digit five worth in the number?	500	NPV
7	Look at your answer sheet. Circle the number of days in June.	30	M
8	Look at your answer sheet. Tick the triangle that has an angle greater than a right angle.		PS
9	What is one-third plus one-third?	$\frac{2}{3}$	F
10	Look at your answer sheet. Write the next number in the sequence.	51	NPV

For this group of questions you will have 10 seconds to work out each answer and write it down.			
11	Write a multiple of five that is more than thirty and less than forty.	35	MD
12	Kris paid for a meal with a ten pound note and got three pounds change. How much did the meal cost?	£7	AS/M
13	Look at your answer sheet. Write the time shown on the analogue clock as it would appear on a twelve-hour digital clock.	5:20	M
14	What is the total of two hundred and sixty and four hundred?	660	AS
15	How many minutes are there in a quarter of an hour?	15	M

Now put down your pen or pencil. The test is finished.

NPV = Number, place value   AS = Addition and subtraction   MD = Multiplication and division   F = Fractions
M = Measurement   PS = Properties of shapes   PD = Position, direction   S = Statistics
